

PercipiaCare & PercipiaCare PLUS

Technical Support Program

What is PercipiaCare?

PercipiaCare replaces the legacy Annual Maintenance Contract (AMC) program while offering the same benefits Percipia clients are accustomed to, like 24/7/365 support, three ways to submit a ticket, bi-annual refresher training, along with discounts on new hardware and software purchases. PercipiaCare is included for all new Percipia clients after the initial go-live.

What is PercipiaCare PLUS?

PercipiaCare PLUS is a support program that offers faster support response times, deeper discounts on hardware and new software, and includes FREE full software upgrades every 3 or 5 years. PercipiaCare PLUS now includes Zabbix Monitoring. When a hotel calls in a support ticket, the Percipia Support Team will already know the property, the IT contacts, products sold, and network environment and can begin work immediately. PercipiaCare PLUS offers a sense of security, knowing that a property will never have unbudgeted software upgrades in the coming years.

PercipiaCare & PercipiaCare PLUS

Technical Support Program

FAQ

Q: What if a support engineer can't resolve my issue?

A: If a Percipia Support Engineer cannot resolve the case, we will assign the ticket to a Percipia Developer Engineer to fix it; this engineer is from the same department that created the products.

Q: How often do I receive upgrades with PercipiaCare PLUS?

A: PercipiaCare PLUS comes in two options, a three-year and five-year upgrade intervals; costs vary based on the selected upgrade schedule.

Q: Do I need to purchase PercipiaCare immediately after installation?

A: No, every new client receives one free year of PercipiaCare. PercipiaCare will activate after go-live and will last one calendar year. After the first year, you may elect to stay with PercipiaCare or upgrade to PercipiaCare PLUS. If you want PercipiaCare PLUS after go-live, you may do so by paying the difference.

COVERED PRODUCTS
